All who feel called and are of pure hearted intent are invited to join us in shamanic journey through the Lion's Gate to where the Goddess Sekhmet holds court. When Sekhmet calls, there is sacred work to be done. Locked within our DNA are the Sirian Light codes, long dormant, awaiting their time of activation. The time is now. As the old order paradigms fall away, we are called to the inner altar of our own alchemical processes. It is through this inner work that the new consciousness is birthed onto the planet. Using Sirian Sacred Circuitry and other cosmic memory triggers, we will journey via the shaman's drum and the solfeggio tones to the Temple of Sekhmet. There the great Lion Goddess of immeasurable power, fierce compassion and alchemical transmutation waits hungrily to devour our illusions of separation, unworthiness and inadequacy. The higher dimensional light beings that some may know as the Star Lions, together with the Sacred Felidae of Sirius, support us in this sacred journey of empowerment and cosmic self-remembrance. Are you called to join us? ***This event will sell out. [Register early to reserve your space.](#)***

**IMPORTANT! Please bring the following:** Notepad and pen, blanket or yoga mat and pillow, a clean / cleared quartz crystal, drinking water, snacks if desired and a **packed lunch** \*(required). \*The nature of our work requires the containment of a sealed alchemical vessel. This means that we will all stay together during the entire time, including lunch, which will be an integral part of our ritual processes, rather than a 'time out' from our activities. By registering for this event it is understood that you willingly agree to meet this requirement. This supports the necessary platform of respect for the good of the whole.
